

New technology

What new opportunities does technology bring to learning?

By Crystal, Natasha and Ruchika

What can technology do for us?

Technology really helps us in learning. You can use a lot of electronic machines. For example you can use computers, calculators, Play stations, telephones, laptops, and even ipods. Everyday we can use these things. Just imagine if these items weren't even here at all! We would have harder lives. So technology does help us.

Computers & Laptops

- **Computers and laptops can find lots of information from the internet and intranet.**
- **You can also do projects on the computer or laptops by using Microsoft programs.**
- **You can put your USB stick or floppy disc in the computer as well as your laptop and work on what you have to do.**

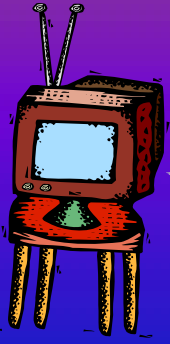

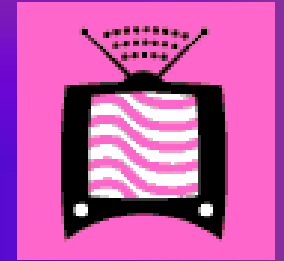

Telephones & mobiles!

You can use telephones and mobile phones when you want to call your friends and ask them what something means in your homework. You can call people if it is an emergency as well.

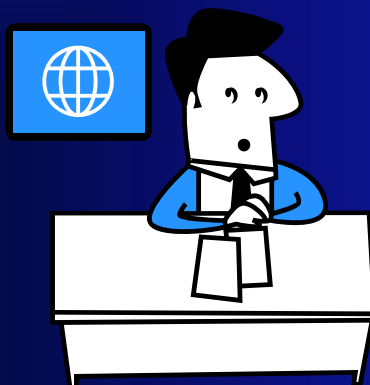

Television!

Watching some television shows can help you to understand information. Also you can watch the news to know what is going on around the world.

I pods

- I pods takes photos and can download information.
- I pods can be really small so they are easy to carry around.
- I pods keep you from learning because it can download information.

Thank you for watching our
presentation. Hope you like
our show!!!!!!!!!!!!
